

VFC Freezer Temperature Log - F°

Required temperature range: -58.0° and +5.0°

Facility Name

Unit Location

Month/Year

VFC PIN

Document day of the week, time, and initials. Review temperature monitoring device alarm and document status with a Y (yes-alarm is triggered) or N (no-alarm is not triggered). Record current, min, and max temperatures once at the start of each workday.

Take action if alarm was triggered.

Day of Month	Day of Week	Time	Initials	Alarm Y or N	Current	MIN	MAX
Example	M	8:00am	NN	Y	2.4	-9	6.2

MIN/MAX
TOO COLD or WARM
(i.e., -58.1° or +5.1°)

Store the vaccine at the appropriate temperature range

Mark the vaccines as “Do Not Use” until vaccine viability is determined

Contact manufacturer(s) to determine viability

Pull any non-viable vaccine and process return

✓ Write the excursion date on viable vaccine

✓ Email the [Temperature Excursion Report](#) (found on Immunization Program website) to vfc@alaska.gov
